

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

## Program on Saturday, 18 February 2017

08:30

### Special Symposium, Room Montreal TTP & ADAMTS13

Chairs:

**P. Knöbl** (Vienna, Austria)  
**J. A. Kremer Hovinga** (Bern, Switzerland)

08:30

### Historical perspective of TTP and ADAMTS13 B. Lämmle (Mainz, Germany)

08:55

### ADAMTS13 interaction with VWF K. Vanhoorelbeke (Kortrijk, Belgium)

09:20

### Insights into the immune response to ADAMTS13 in acquired TTP M. Schaller Tschan (Bern, Switzerland)

08:30

### Oral Communications, Room Singapore Bleeding Disorders - Clinical Studies

Chairs:

**C. Bidlingmaier** (Munich, Germany)  
**R. Klamroth** (Berlin, Germany)

08:30

### Immunogenicity of BAX 855 in previously treated patients with congenital severe hemophilia A F. M. Horling (Vienna, Austria) P. Allacher (Krems, Austria) H. Koppensteiner (Vienna, Austria) W. Engl (Vienna, Austria) F. Scheiflinger (Vienna, Austria) B. Abbühl (Vienna, Austria) B. M. Reipert (Vienna, Austria)

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

08:42

[Danger signal-dependent activation of human immune cells by factor VIII products](#)

L. Miller (Langen, Germany)  
K. M. Kistner (Langen, Germany)  
E. Ringler (Langen, Germany)  
Z. Waibler (Langen, Germany)  
on behalf of the ABIRISK consortium

08:54

[Immune tolerance induction \(ITI\) with factor IX and combined immunosuppressive therapy in two patients with severe haemophilia B, longstanding inhibitors and previous allergic reactions](#)

K. Holstein (Hamburg, Germany)  
M. Voigtländer (Hamburg, Germany)  
C. Dicke (Hamburg, Germany)  
F. Langer (Hamburg, Germany)

09:06

[Very low-dose recombinant activated factor VII for treatment of major surgical bleeding](#)

T. Hoffmann (Duesseldorf, Germany)  
S. Sixt (Duesseldorf, Germany)  
A. Albert (Duesseldorf, Germany)  
A. Dierksen (Duesseldorf, Germany)  
E. Roussel (Duesseldorf, Germany)  
A. Lichtenberg (Duesseldorf, Germany)  
A. Assmann (Duesseldorf, Germany)

09:18

[Identification of eight novel mutations and one recurrent mutation in F13B gene leading to inherited, heterozygous FXIII deficiency](#)

V. Ivaskevicius (Bonn, Germany)  
A. Biswas (Bonn, Germany)  
S. Singh (Bonn, Germany)  
G. Kappert (Duisburg, Germany)  
S. Halimeh (Duisburg, Germany)  
H. Rott (Duisburg, Germany)  
S. Flommersfeld (Marburg, Germany)  
H. Trobisch (Duisburg, Germany)  
U. Kreibich (Zwickau, Germany)  
M. Olivieri (Munich, Germany)  
J. Oldenburg (Bonn, Germany)

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

09:30

## Characterization of GGCX mutations identified in VKCFD1 patients

S. Ghosh (Bonn, Germany)  
K. J. Czogalla (Bonn, Germany)  
K. Liphardt (Bonn, Germany)  
J. Müller (Bonn, Germany)  
K. Höning (Bonn, Germany)  
V. Hornung (Bonn, Germany / Munich, Germany)  
M. Watzka (Bonn, Germany)  
J. Oldenburg (Bonn, Germany)

08:30

## State of the Art, Room Sydney

### Inflammation

Chairs:

**W. Korte** (St. Gallen, Switzerland)

**V. Schröder** (Bern, Switzerland)

08:30

## DAMPs in systemic inflammation: where they come from and how to get rid of them?

S. Zeerleder (Amsterdam, The Netherlands)

08:55

## Complement activation in sepsis and trauma

M. Huber-Lang (Ulm, Germany)

09:20

## Tissue factor and inflammatory mediators of thrombosis

W. Ruf (Mainz, Germany)

08:30

## Special Symposium, Room Osaka/Samarkand

Neue Möglichkeiten (und Grenzen?) durch eine standardisierte  
Ultraschall-Untersuchung früher Gelenkveränderungen (HEAD-US) bei Patienten mit  
schwerer Blutungsneigung - Theorie und praktische Demonstrationen für Behandler  
und Patienten

**B. Habermann** (Mainz, Germany)

**M. Sigl-Kraetzig** (Blaubeuren, Germany)

08:30

## Einleitung - wieso Ultraschall zur Bildgebung bei hämophiler Arthropathie?

M. Sigl-Kraetzig (Blaubeuren, Germany)

08:35

## Synovitis bei Patienten mit schwerer Blutungsneigung - frühe pathologische Veränderungen bei Hämophiler Arthropathie und neue Erkenntnisse im Rahmen der Erstellung einer neuen Leitlinie zu D

B. Habermann (Mainz, Germany)

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

08:50

Ultraschall - wie funktioniert das? Technische Grundlagen, Artefakte, Chancen und Grenzen der Methode zur Bildgebung an Gelenken

L. Steffgen (Mainleus, Germany)

09:10

Ultraschall als Tool des Behandlers zur Darstellung von Gelenkveränderungen bei Patienten mit Blutungsneigung

M. Sigl-Kraetzig (Blaubeuren, Germany)

09:30

Der HEAD-US-Score: untersucherunabhängige Einteilung der durch standardisierten Ultraschall darstellbaren Gelenkveränderungen

I. Hegemann (Zurich, Switzerland)

09:45

Kernspintomographie oder standardisierter Ultraschall zur Darstellung von Gelenkveränderungen bei Blutungsneigung - was ist besser?

M. Püsken (Cologne, Germany)

10:05

Falldemonstrationen von Patienten mit sonographisch darstellbaren Gelenkveränderungen (Probanden für die praktische Demonstration)

R. Kobelt (Wabern, Switzerland)

10:15

Praktische Demonstration des Untersuchungsganges der standardisierten Gelenksonographie nach der Methode von C. Martinoli (HEAD-US) an Probanden

I. Hegemann (Zurich, Switzerland)

10:00

Special Symposium, Room Montreal

TTP & ADAMTS13

Chairs:

**Z. Cermakova** (Ostrava, Czech Republic)

**A. S. von Krogh** (Trondheim, Norway)

10:00

Leben mit TTP – Sicht der Betroffenen

S. Könen (Niestetal, Germany)

10:25

Treatment of acquired TTP

P. Coppo (Paris, France)

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

10:50

## Hereditary TTP (Upshaw-Schulman syndrome)

Y. Fujimura (Nara, Japan)

10:00

## Special Symposium, Room Singapore

HIV-Langzeitüberlebende nach Infektion durch Blutprodukte

Chairs:

**S. Flommersfeld** (Marburg, Germany)

**R. Zimmermann** (Heidelberg, Germany)

10:00

## Bericht aus Sicht der DHG (Deutsche Hämophilie Gesellschaft)

W. Kalnins (Nettersheim, Germany)

10:20

## Bericht aus Sicht der Betroffenen

M. Diederich (Ulm, Germany)

10:40

## Bericht aus Sicht der Politik

H. Schmidbauer (Nürnberg, Germany)

11:00

## Schweizer Perspektive

R. Schwabe (Bern, Switzerland)

11:20

## Diskussionsrunde mit allen Vortragenden

10:00

## Oral Communications, Room Sydney

Platelets

Chairs:

**L. Alberio** (Lausanne, Switzerland)

**D. Dürschmied** (Freiburg, Germany)

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

10:00

[A novel splice-specific GF11B mutation in a family with recessive macrothrombocytopenia](#)

H. Schulze (Würzburg, Germany)  
A. Schlagenhauf (Graz, Austria)  
G. Manukjan (Würzburg, Germany)  
O. Andres (Würzburg, Germany)  
E. Klopocki (Würzburg, Germany)  
S. Panzer (Vienna, Austria)  
C. Beham-Schmid (Graz, Austria)  
K. Althaus (Greifswald, Germany)  
A. Greinacher (Greifswald, Germany)  
T. Bakchoul (Greifswald, Germany)  
M. G. Seidel (Graz, Austria)

10:12

[Antibody-mediated platelet-desialylation: a potential role in platelet destruction in autoimmune thrombocytopenia](#)

R. Jouni (Tuebingen, Germany)  
J. Alex (Greifswald, Germany)  
I. Marini (Greifswald, Germany)  
L. Janzen (Greifswald, Germany)  
A. Greinacher (Greifswald, Germany)  
T. Bakchoul (Tuebingen, Germany)

10:24

[Reelin is important for PLCgamma2 phosphorylation upon platelet activation and integrin outside-in signaling](#)

I. Krueger (Duesseldorf, Germany)  
M. Klier (Duesseldorf, Germany)  
N. S. Gowert (Duesseldorf, Germany)  
M. Elvers (Duesseldorf, Germany)

10:36

[Platelets are a previously unrecognized source of immune-modulatory CXCL14](#)

A. Witte (Tübingen, Germany)  
J. Lu (Tübingen, Germany)  
M. Gawaz (Tübingen, Germany)

10:48

[Specific inhibition of extracellular CyPA affects platelet and monocyte functions in vitro and in vivo](#)

S. von Ungern-Sternberg (Tubingen, Germany)  
B. Walker-Allgaier (Tubingen, Germany)  
S. Vogel (Tubingen, Germany)  
E. Kremmer (Munich, Germany)  
O. Borst (Tubingen, Germany)  
T. Billar (Pittsburgh, USA)  
A. May (Tubingen, Germany)  
M. Gawaz (Tubingen, Germany)  
P. Seizer (Tubingen, Germany)

# 61<sup>ST</sup> ANNUAL MEETING SOCIETY OF THROMBOSIS AND HEMOSTASIS RESEARCH

11:00

High shear induced platelet rolling velocity and adhesion onto von Willebrand factor are mediated by GpIb alpha clustering as demonstrated by FRET/FLIM and can be inhibited by alpha linoleni

S. Stivala (Zurich, Switzerland / Baden, Switzerland)

D. van den Heuvel (Utrecht, The Netherlands)

S. De Meyer ( Kortrijk, Belgium)

S. Gobbato (Zurich, Switzerland)

N. Bonetti (Zurich, Switzerland)

H. Deckmyn ( Kortrijk, Belgium)

G. G. Camici (Zurich, Switzerland)

T. F. Lüscher (Zurich, Switzerland)

R. Urbanus (Utrecht, The Netherlands)

H. Gerritsen (Utrecht, The Netherlands)

J. H. Beer (Zurich, Switzerland / Baden, Switzerland)

11:30

Plenary Session V, Room Montreal

Chairs:

**S. Eichinger-Hasenauer** (Vienna, Austria)

**M. Nagler** (Bern, Switzerland)

11:30

Choosing wisely with the help of risk scores - balancing the risk of stroke and bleeding in atrial fibrillation

G. Y. Lip (Birmingham, United Kingdom)

12:00

How the hemostatic system modulates atherosclerosis

H. ten Cate (Maastricht, The Netherlands)

12:30

Closing ceremony, Room Montreal

Farewell and Handover

Chairs:

**J. A. Kremer Hovinga** (Bern, Switzerland)
